

Halle Bryant

hallebryant@gmail.com | (973) 803-6509

OBJECTIVE STATEMENT

Data scientist and skilled communications professional seeking opportunities to combine rigorous analytics and public interest work. Eager to use a strong technical skillset (Python, R, SQL, Tableau) and mathematical aptitude on behalf of mission-driven organizations, particularly in education, health care and public service sectors.

EDUCATION

SUNY - University at Buffalo

January 2025 – May 2026

Master of Science, Data Science

Amherst, NY

- **Relevant Coursework:** Data Intensive Computing, Data Models & Query Languages, Information Retrieval, Machine Learning, Numerical Mathematics for Data Scientists, Probability and Statistics, Programming and Database Languages, Statistical Learning
- **Capstone:** "Logic for Open Databases and Open Ontologies" - Co-developed a mathematical proof system to describe and analyze open-world data structures

Brown University

May 2021

Bachelor of Arts, Applied Mathematics and Africana Studies

Providence, RI

RELEVANT SKILLS

- **Programming & Data Skills:** Git, Python (pandas, NumPy, PySpark, TensorFlow), R (tidyverse), SQL, Tableau
- **Statistical Learning and Machine Learning Methods:** Regression & GLMs, Decision Trees, Bayesian Statistics, Clustering, Time Series Analysis, Survival Analysis, Hypothesis Testing, Relevance-based Ranking and Indexing, (Kernel) Principal Component Analysis
- **Platforms:** Adobe Creative Cloud, Constant Contact, Google Suite (including Google Cloud Platform), Microsoft Suite
- **Other Skills:** Research Communications, Editing, Mathematical and Statistical Analysis, Graphic Design, Prompt Engineering

PROFESSIONAL EXPERIENCE

Institute for Computational and Experimental Research in Mathematics

January 2023 – August 2025

Communications Consultant | Mar. 2025 – Aug. 2025

Remote

- Managed the successful completion of an NSF grant reporting project, performing data extraction and analysis to communicate the scientific outcomes of twenty distinct mathematical research programs to funders
- Applied graphic design principles to create advertisements for scientific workshops using Adobe Creative Cloud and Constant Contact
- Managed and edited writing submissions from visiting mathematical researchers and alumni

Communications Specialist | Jan. 2023 – Jan. 2025

Providence, RI

- Partnered with researchers and institute leadership to share research outcomes, translating technical work into accessible reports and newsletters for diverse mathematical audiences, including funders and the public

- Developed and executed fundraising strategy to attract individual and organizational donors, directly contributing to the institute's growth and boosting alumni engagement
- Oversaw the acquisition and editing of scientific research communications, ensuring clarity, accuracy, and consistency with the institute's messaging priorities

Huntington Learning Center, Williamsville

March 2025 – Present

Mathematics, Exam Prep, and GED Instructor

Williamsville, NY

- Tailors instruction to meet individual student needs, with a focus on adult GED seekers, advanced high school students, and college-level mathematics and statistics students

Discord

August 2021 – March 2022

Trust and Safety Analyst

Remote

- Addressed platform violations and shaped community guidelines on a digital communications platform serving over 500 million users worldwide
- Investigated and resolved over 80 reports of platform abuse per day
- Collaborated with analysts to handle high-harm content and mitigate active threats to user safety

Tomaquag Museum

May 2021 – August 2021

Archival Intern

Exeter, RI

- Performed qualitative and quantitative analyses of historical periodicals from the Narragansett Indian Tribe
- Identified and extracted 7,000+ key terms for archival research and leveraged Python to develop an indexing system for tribal documents

Brown University Center for the Study of Slavery and Justice

September 2019 – June 2021

Atlantic Slave Trade Researcher

Providence, RI

- Conducted foundational research for a PBS Independent Lens documentary
- Located, analyzed, and annotated historical images to provide visual context for documentary storylines
- Translated historical documents from French and Haitian Creole into English

Brown University Education Department

June 2019 – August 2020

Student Researcher

Providence, RI

- Located and synthesized over 300 studies on education interventions across US public schools
- Developed visual aids and research overviews summarizing key findings
- Organized and facilitated the data retrieval and encoding process for a large-scale meta-analysis utilized by faculty researchers at Brown University and Stanford University

INTERESTS

- Mathematics, history, science fiction, cooking, chess, music, hiking
